*"Did you know that 90% of what you will learn in your entire life is learned between birth and the age of six years? Early childhood education provides an amazing opportunity to mold and shape the minds of children, instilling a life-long love of learning, passion for knowledge, and values that will truly make a difference in our world. Children are our future, and the rewards that come with prioritizing these fundamental years are unsurpassed!"*

*– Cari Shorrock, Associate Director of Wind & Tide Preschools*

*"There's no price tag on the emotional rewards you get knowing you contributed to a child's life in a positive way. There's no monetary value you can ever put on that. That is a gift and you get to go to sleep every night knowing you did good. There's nothing better than that. Nothing."*

*– Melanie Cannon, Stenberg graduate*

*Over 92% of our grads are employed in their field of study within 6 months of graduation.*
